Hamad Industrial Company

ABOUT US

Hamad Industrial Company (HIC) is a leading provider of industrial inspection, calibration, testing, and training services across the Kingdom of Saudi Arabia. With a steadfast commitment to safety, precision, operational excellence, HIC delivers world-class technical solutions that protect assets, ensure compliance, and empower industries to operate with confidence. Our team of certified professionals combines deep expertise with cutting-edge technology to serve clients across oil & gas, construction, manufacturing, and energy sectors.

OUR MISSION

To deliver uncompromising inspection, calibration, and technical services that safeguard client assets, protect human life, and ensure regulatory compliance, while setting the industry benchmark for precision, reliability, and excellence in every engagement.

OUR VISION

To become a globally recognized leader in industrial technical services, pioneering innovation, advancing safety standards, and transforming the way industries approach quality assurance, operational integrity, and regulatory compliance.

CORE VALUES

S

SAFETY FIRST

We prioritize the health and safety of people above all else.

I

INTEGRITY & ACCURACY

Unwavering honesty and precision in every inspection and calibration.

N

INNOVATION & ADAPTABILITY

Embracing emerging technologies to continuously evolve.

O

OPERATIONAL EXCELLENCE

Flawless execution, exceeding expectations consistently.

P

PEOPLE-CENTRIC CULTURE

Investing in our people - their growth drives our success.

شركة حامد إندستريال
Hamad Industrial Company

SAFETY

PRECISION

COMPLIANCE

HIC delivers a comprehensive range of industrial technical services tailored to meet the highest standards of quality, safety, and operational excellence. Our multidisciplinary expertise enables us to provide end-to-end solutions that support industries in maintaining compliance, enhancing reliability, and achieving optimal performance in demanding operating environments.

OUR SERVICES

1. INSPECTION & TESTING

Industrial equipment, lifting gear, cranes, and structural integrity inspections.

2. LOAD TESTING

Certified load testing for cranes, hoists, lifting beams, and structures.

3. TRAINING & CERTIFICATION

Operator, rigger, scaffolder, and safety training programs.

4. NDT SERVICES

LPT, MPT, UT, VT, and advanced inspection solutions.

5. CALIBRATION SERVICES

ISO/IEC 17025-compliant calibration with full traceability.

6. OTHER SERVICES

QR certificates, client portal, digital equipment register, and inspection tracking.

WHY CHOOSE HIC

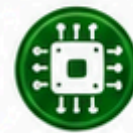

SAFETY FIRST

Zero-compromise safety culture across all operations.

CERTIFIED EXPERTS

Highly qualified inspectors, engineers, and trainers with deep industry experience.

ADVANCED TECHNOLOGY

Modern equipment, innovative techniques, and digital reporting for accurate results.

FAST RESPONSE

Quick mobilization, efficient execution, and timely project delivery.

COMPLIANCE ASSURANCE

Full adherence to Saudi & international standards and regulatory requirements.

END-TO-END SUPPORT

Inspection, testing, calibration, and training under one trusted partner.

Hamad Industrial Company

INSPECTION

HIC conducts comprehensive inspection, testing, and certification of a wide range of industrial equipment, ensuring that every component meets the highest standards of safety, quality, and performance. Our certified inspectors utilize advanced inspection techniques, including both non-destructive and specialized testing methods, to deliver accurate evaluations and reliable compliance assessments.

- All types of lifting equipment & accessories

- Overhead cranes & gantry systems

- Mobile cranes & tower cranes

- Forklifts & earth moving machinery

- Manlift & Scissor lift

- Safety Net & Life Line

- Containers & lifting beams

- Load monitoring & safety devices

- Structural & weld inspections

- Pressure vessels & storage tanks

- offshore pedestal crane

Compliance Standards

All inspections are conducted in accordance with internationally recognized standards, including LOLER, PUWER, BS, ASME, and applicable Saudi Arabian regulatory requirements, ensuring full legal compliance, operational safety, and asset reliability.

LOAD TESTING

HIC provides professional load testing services as part of our comprehensive safety assurance program. By applying calibrated test loads under controlled conditions, we assess the structural integrity, operational performance, and safe working load limits of cranes, lifting equipment, and supporting structures, ensuring compliance with industry standards and regulatory requirements.

LOAD TESTING TYPES

Static Load Testing

Apply a constant load to verify structural strength and integrity.

Dynamic Load Testing

Apply a load in motion to evaluate performance under operational conditions.

Proof Load Testing

Apply a predefined test load to verify that the equipment can safely handle loads beyond its working limit.

شركة حامد إندستريال
Hamad Industrial Company

TRAINING & CERTIFICATION

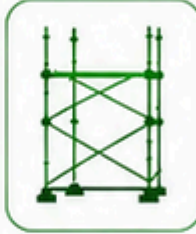

HIC delivers specialized Training and Certification Programs designed to equip personnel with the knowledge, practical skills, and professional credentials required to perform their duties safely, efficiently, and in compliance with industry regulations. Our comprehensive training solutions are conducted by highly qualified instructors with extensive field experience and are aligned with KSA regulatory requirements, international standards, and industry best practices.

CERTIFICATION PROGRAMS OFFERED:

LIFTING OPERATIONS

- Lorry Loader Crane Operator Certification
- Mobile Crane Operator Training
- Overhead Crane Operator Training
- Tower Crane Operator Training
- Rigger Certification (Level I, II & III)
- Lifting Supervisor Certification

ACCESS EQUIPMENT

- Scaffolder Certification
- Scaffold Inspector Training
- Scaffold Supervisor Training
- Mobile Elevated Work Platform (MEWP) Operator Training
- Aerial Work Platform Operator Training

MATERIAL HANDLING EQUIPMENT

- Forklift Operator Certification
- Reach Truck Operator Training
- Telehandler Operator Training
- Pallet Truck Operator Training

HEAVY EQUIPMENT OPERATIONS

- Backhoe Loader Operator Training
- Wheel Loader Operator Training
- Bulldozer Operator Training
- Grader Operator Training
- Dump Truck Operator Training

SAFETY & INSPECTION

- Lifting Equipment Inspection Awareness
- Working at Height Training
- Fall Protection & Rescue Training
- Confined Space Entry & Rescue
- Permit to Work (PTW) Training
- First Aid Training
- CPR (Cardiopulmonary Resuscitation) Training

OIL & GAS SAFETY TRAINING

- H2S Awareness
- Permit to Work (PTW)
- Process Safety Management
- SIMOPS Awareness
- Oil & Gas Site Safety

Why HIC Training?

Experienced Certified Trainers • Hands-On Practical Sessions • Full Regulatory Compliance • Customized Training Programs

شركة حامد إندستريال
Hamad Industrial Company

NON-DESTRUCTIVE TESTING (NDT)

Non-Destructive Testing (NDT) encompasses a range of advanced inspection and evaluation techniques used to assess material properties, detect defects, and verify structural integrity without causing damage to the component or asset being examined. HIC's certified NDT technicians utilize industry-approved methodologies and state-of-the-art equipment to identify surface and subsurface discontinuities, ensuring accurate, reliable, and repeatable results.

Liquid Penetrant Testing

Utilizing capillary action principles, Liquid Penetrant Testing (PT) involves the application of specialized penetrant fluids to component surfaces to detect fine cracks, porosity, seams, laps, and other surface-breaking discontinuities that may be invisible to the naked eye.

Magnetic Particle Testing

Magnetic Particle Testing (MT) detects surface and near-surface defects in ferromagnetic materials through magnetic flux leakage using wet and dry particle inspection methods.

Ultrasonic Testing

Ultrasonic Testing (UT) uses high-frequency sound waves to measure material thickness, detect internal defects, and identify corrosion, providing accurate and reliable volumetric inspection results.

Welder Qualification Testing

Assessing welder performance through practical qualification testing and certification. Ensuring compliance, precision, and confidence in every weld.

INDUSTRIAL INSPECTION SERVICES

PRECISION • SAFETY • RELIABILITY

CALIBRATION SERVICES

HIC provides comprehensive calibration services in accordance with ISO/IEC 17025 standards, ensuring that instruments and measurement systems deliver accurate, reliable, and fully traceable results. Our state-of-the-art calibration laboratory and on-site calibration capabilities support a wide range of industrial sectors, helping organizations maintain measurement integrity, regulatory compliance, and operational efficiency.

Electrical Calibration

- ✓ Multimeters & process calibrators
- ✓ Voltmeters & ammeters
- ✓ HV testers & insulation testers
- ✓ Power analyzers

Dimensional Calibration

- ✓ Calipers & micrometers
- ✓ Angle measuring instruments
- ✓ Measuring tapes & gauges
- ✓ Height gauges & indicators

Thermal Calibration

- ✓ Dry block calibrators
- ✓ RTD sensors & thermocouples
- ✓ Environmental meters
- ✓ Temperature baths & recorders

Pressure Calibration

- ✓ Pressure gauges & transducers
- ✓ Differential pressure transmitters
- ✓ Flow meters & regulators
- ✓ Dead weight testers

Mechanical Calibration

- ✓ Torque wrenches & multipliers
- ✓ Tachometers & vibration meters
- ✓ Weighing balances & scales
- ✓ Standard weights calibration

Gas Detector Calibration

- ✓ Multi & single gas detectors
- ✓ Gas transmitters & analyzers
- ✓ Combustible gas sensors
- ✓ Toxic gas monitors

ON-SITE CALIBRATION

We bring our expertise to your facility—same industry-leading standards, at your location or ours.
